EDUCATION

- **Kalinga Institute of Industrial Technology**

BTech in Information Technology; CGPA: 8.95

Bhubaneswar, India

July. 2019 – June. 2023

TECHNICAL SKILLS

Coursework: Data Structure & Algorithms, OOPs Concept, Problem Solving, DBMS, SDLC.

Languages/Frameworks: C/C++, Java, HTML/CSS, JavaScript, NodeJs, ExpressJs, ReactJs, NextJs.

Database: MongoDB, Firebase

Tools: Git, Linux, Visual Studio Code, Eclipse, Figma.

EXPERIENCE

- **OpenText**

Intern

Bengaluru, India

Jan. 2023 - Present

- Utilized **Agile** methodology to **Develop** monthly reports for OCC team Using a Spring Boot application.
- Implemented **REST API** calls to retrieve necessary data for report generation.
- Automated the previously manual process of counting data across multiple Excel files and individual profiles, resulting in a **15 - 20 hr/week reduction** in debugging and setup time.

- **EPIKInDiFi**

Intern Trainee

Bhubaneswar, India

Jan. 2022 - Jun. 2022

- Gained **hands-on** experience in **ReactJS, JavaScript, EDA, and Linux** through training and mentorship.
- Developed baseline knowledge of software, applications, and technical processes within creating mobile applications, and website functionality using **ReactJs** and **JavaScript**.
- Utilized EDA tools to improve efficiency and gained experience working with **Linux** operating systems.

PROJECTS

- **Code Dynamics**

- Source Code

Figma, NextJs, Tailwind CSS, Strapi (CMS), GIT, and hosted on Vercel (.in domain)

- Code Dynamics project provides DSA solutions for major platforms, including 30K+ solutions, 50+ RRS, and optimized solutions for all programming languages.
- The project includes a Dynamics sheet for the DSA community and has 150+ users during pre-launch.
- The web app is dynamic and being made PWA-compatible for easy access.

- **Next Gen UI**

- Source Code

Dynamic and Intuitive Component Library

- Created a dynamic and intuitive component library with a vast collection of web components (navbar, footer, cards, buttons, etc.) using NextJs, Tailwind CSS, and Firebase.
- Built the library with a focus on simplicity and ease of use by providing code in HTML and React and pursuing the goal of converting it into an NPM package.
- Included **dynamic routing** in the library to enable seamless navigation between the different components.

ACHIEVEMENTS

- Web Dev. Lead at **GeeksforGeeks KIIT**

- Earned **5*** Badge in **C, C++ and DSA** and completed **30 Days of Code** on **Hackerrank**.
